JUTE SENSATIONS AND TERRITORIES

Alicante eco-conscious is a collection of eco-leather accessories that found inspiration in the finish in the Spanish city of Alicante, which has seen the craftsmanship of natural jute as a protagonist in its history. The faux leather material wants to be a reinterpretation that imitates the texture of the natural raw jute fabric in appearance and texture.

UNIQUE IDENTITY IN RESTAURANTS

The placemats, the menus, the wine lists, and other selected customizable items become an effective business card able to tell the identity of hotel hospitality and catering.

Alicante by Futility is the ideal choice for hotels and restaurants to make the brand image recognizable and rememberable with taste.

ECO-LEATHER WITH THE MAXIMUM PERFORMANCE AND DURATION

Faux leather (or imitation leather) is an ecological fabric to the touch, similar to natural leather. Its composition is new because obtained through particular transformation processes.

Available in 4 colors: natural, brown, red, and black. Thanks to the special water-repellent treatment, it offers maximum strength and durability and responds well to washing.
