POP-UP DISPLAY SOLUTIONS FOR TEMPORARY EXHIBITIONS

BIGL
THINK BIG
TO LEAD UP

The whole essence of a project is hidden in the rapidity of a glance.

In our projects we put all the attention and passion that is needed, the rest will be done by the goodness of the idea and certainly the quality of the materials.

With Bigly, our commitment begins with the development of a functional project that works over time, up to ensuring its correct installation.

But we believe we have gone further, designing a paneling system designed

for temporary installations, solving transport and storage problems.

The versatility of the Bigly display system makes it possible to satisfy the needs of exhibition spaces and museums, temporary outlets, fashion stands and retail stores.

MODULARITY

The modular structure allows to move the walls of the exhibition depending on the spaces, for a result perfect every time.

RE-CONFIGURATION

It is possible to re-configure the composition, reusing the same elements, to make it fit to new exhibition spaces.

FAST ASSEMBLY

For the assembly of a 4x2 meter set-up, it only takes 15 minutes!

Bigly is a solid and dynamic structure that characterizes with strong personality environments such as: fashion stand, temporary outlets, retail stores, locations of museum events and much more.

COMMUNICATION AND GRAPHIC REPLACEMENT

Communication is ideal because it is total.
The structure is entirely covered with identity
of the brand and offers the possibility of graphic
replacement.

OPTIONAL

BIGLY is a system that allows
the configuration with accessories
according to your request, such
lights led, LCD tv or, as made
for motorsport, vents of air
recirculation for the helmets.

PORTABILITY

An important structure
but easily transportable
thanks to the flight case,
supplied upon request, able
to contain everything you need
for a traveling exhibition.

CATERING EQUIPMENT

The flexibility and versatility of the Bigly system meet the perfect situation in catering services,

precisely because it offers an impeccable image and generates spaces for high-level performances.

BIGLY supports and values the COMPACT DAXI desk

Bigly precisely because it can be easily disassembled, becomes an irreplaceable travel companion, for experiences on the go with Compact Daxi sliding desk, the first travel station designed to create experiences on demand, from mixology to finger food.

POP-UP DISPLAY SOLUTIONS FOR SPORTS EVENTS

BIGLY
THINK BIG
TO LEAD UP

What are motorsport teams looking for? An installation with a captivating, personalized layout that enhances one's own brand and that of the partners, which is able to combine design and practicality.

BIGLY by Futility wants to think big to be ahead of the curve! BIGLY is a system of dibond panels, an aluminum composite, capable of satisfying the request for fitting out because it is a reusable, stable solution and guarantees great freedom of design:

the ease of digital printing, film lamination allow you to 'play' with customized finishes and colors. Dibond is a key material in the communication sector, because it is rigid and light.
